

Congratulations to the class of 2021, and to everyone on making it through an unusual academic year! For those of you moving on from HGSE, we at the Green Team and Operations wish you the best and always welcome your sustainability input as (soon-to-be) alumni/ae.

LIVE IT

UPGRADE TO LED BULBS WITH THE UNIVERSITY-WIDE VIRTUAL POP-UP LIGHTING SALE – Monday, May 10 – Monday, May 24, techniartpopup.com/eversource_ma_harvard

We have partnered with Eversource to offer the members of the Harvard community living in Massachusetts, Connecticut, Rhode Island and New Hampshire, deep discounts on energy-efficient lighting and products through our online storefront. All orders will be shipped to your home for free after the sale concludes on Monday, May 24.

MONTHLY HGSE GREEN TEAM MEETING – Thursday, May 20, 1:00- 1:45pm ET on [Zoom](#)

All students, faculty and staff interested in making our school healthier and more sustainable are encouraged to join. We share the sustainability projects each of us is currently working on (for school, work or at home); reflect on our team's most recent initiatives; and will work on our spring project of a renewed Harvard Sustainability Pledge. Meetings also provide a great opportunity to get to know people from across the Ed School. Find the Zoom login info for the meeting [here](#) and join our community over email by subscribing to [the HGSE Green Team listserv](#). Catch up on past meetings at operations.gse.harvard.edu/sustainability.

LEARN IT

VIRTUALLY RIDING AROUND HARVARD: NEW BIKE INFRASTRUCTURE—Wednesday, May 26, 12:00pm ET. RSVP [here](#).

Join Harvard's [CommuterChoice](#) for their last virtual bike workshop of this semester, which is free to attend. Interested in bicycle-related updates and announcements? Join the CommuterChoice [email list](#) and check out [past workshop recordings](#).

EXTRA CREDIT

Teach the environment wherever you are headed next. Learn from HGSE's Tina Grotzer about how we, as educators, can help students make wise choices about responding to climate change and safeguarding the planet's future — not only by teaching environmental science, but also by fostering an awareness of how students' own actions can help or harm our world.

Invite the high school students in your life to apply for the Youth Climate Summit Fund. High school students can apply for scholarships to the Youth Summits on Climate Change and Public Health coming up in July and organized by Harvard's C-CHANGE. The scholarships will fully or partially cover tuition, travel, and any other costs associated with the program and are meant to draw a diverse group of students from around the country who are engaged in climate and health issues or who have been personally impacted. Learn more [here](#).

Best Regards,

Anne
